Education

University of Oxford (Oct 2024 – Jun 2027)

- BA Philosophy, Politics and Economics
- Undergraduate Scholarship & Examination Prize & Distinction in Prelims & Crankstart Scholarship

Chipping Norton School (Sep 2017 – Jun 2024)

- A-levels in Religious Studies (A*), Mathematics (A), French (A) and English Literature (A), as well as an EPQ (A*) on considering the place of violence within political protest.
-

Work Experience and Volunteering

Oxford AI Safety Initiative – Governance Roundtable Lead (Jan 2026 –)

- Organised meetings and prepared readings for the AI Governance Roundtable, as well as presenting papers for discussion.

Research Impact Oxford – Research Fellow (Oct 2025 – Jan 2026)

- Worked alongside other Research Fellows to build a probabilistic forecast for the adoption of Autonomous Mobile Robots in US warehouses in 2028 and 2031 respectively.
- Organised coworking sessions, designed the major framework of the forecast, and co-authored the final report.

Sentence Institute Internship (Jul 2025 – Sep 2025)

- Created search strings to scrape databases for hundreds of research papers on Human–AI interaction and human attitudes towards AI and manually screened subject to relevant inclusion and exclusion criteria.

Reason and Rationality – Group Leader (Jul 2025 – Aug 2025)

- Facilitated convivial conversation and dialogue at a programme aimed at bright high school students to explore topics in philosophy and economics through small-group discussion.

Vibes Fitness and Cheer – Allstar cheerleading coach (Aug 2023 – Dec 2024)

- Coached a team of 15 girls over the course of a year during my A-levels, as well as liaising with parents to ensure everyone's experience was both positive and productive.
-

Extracurricular

Centre on Longterm Risk Fundamentals Programme – Participant (Feb 2025 – March 2025)

- An introduction to CLR's work on how Transformative AI may lead to the creation of large amounts of suffering, for which I also completed a short capstone project extending some of CLR's work.

ARBOx (Jan 2025)

- Attended a 2-week intensive bootcamp to rapidly build skills in ML safety, including building gpt-2-small, learning interpretability techniques, understanding RLHF, and replicating key research papers through pair-programming.

Rowing and Gymnastics (Oct 2024 –)

- Alongside my degree at Oxford, I also row with my college, taking part in at least 9 sessions per week.
- Competed for Oxford against Cambridge for the Varsity Gymnastics team, as well as regularly committing to >6 hours of gymnastics training per week.

ESPR (Aug 2024) & **WARP** (Apr 2025)

- Selective 10-day intensive program for mathematically gifted students focused on applied rationality.

Non-Trivial Fellowship (Jul 2024 – Aug 2024)

- Condensed large amounts of information gathered from various papers and news articles over the course of 8 weeks, culminating in a paper in which I argued that religious fundamentalism poses a major threat to democracy.
-

Other Activities/Skills

Languages: English (Native), French (Professional Working Proficiency)

Volunteering: Oxford AI Safety Initiative, CSLA, other school volunteering activities
